

PU VENEER SHEET

Modern light luxury element design

PU STONE PANEL

RESTORE NATURAL STONE TEXTURE

PU is polyurethane high polymer material, temperature resistance at minus 20 degrees centigrade to 120 degrees centigrade, coupled with the surface of the high-strength coatings, acid-resistant, sunscreen, more durable. In the application location, mainly used for wall decoration, can be applied to the building interior, wall surface. PU wall panels are lightweight, easy to cut, not easy to crack, inexpensive, mildew-proof and environmentally friendly, easy to construct, which can greatly shorten the construction cycle, thus saving costs. In terms of process, the raw material will be pressed through the mold, and at the same time, the mold is used for coloring.

PORTABLE INSTALLATION

PU wall panels are very easy to install, the construction process is quite simple as well, only need to be applied on a flat rough wall, and because it is exceedingly lightweight, the scene can be cut according to the design effect, which does greatly save labor and time costs.

Space art from Nature

Design

Texture space

Fast

Short installation time and short time required for the entire project. Far less than the installation time of traditional culture stone products.

Easy to instal

The product molds are finely polished according to the real stone, coupled with a special process, so that the product appearance is realistic and delicate, and exactly look the same as the real stone.

Lightweight

Due to the high-tech materials used, it is lightweight and does not require other mechanical operations, allowing installation to be completed by a single person.

Real appearance

The product is designed as an internal card structure with tongue and groove and pre-sewn seams. Most of the work does not require embedded seams, and can be installed directly with screws and nails.

Durable

The product is made up of high polymer material and sprayed with multi-layer high strength coating, which makes it acid-resistant, sun-proof, UV-resistant and more durable.

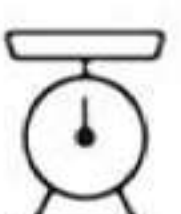

Versatility

All products have been professionally tested for waterproofing, insect resistance and flame retardance and can be used on almost any dry, flat substrate in the home.

Mushroom stone pu001

Bump in the middle

Material: PU polyurethane

Specification

- 1200*600*100mm (3 stone textures)
- 600*600*100mm (1 stone textures)
- 800*400*50mm (4 stone textures)
- 900*450*80mm (1 stone texture)
- 600*300*60mm (2 stone textures)
- 1200*600*60mm (2 stone textures)

Colour

Stone skin pu002

Flatter in the middle

Material: PU polyurethane

- Specification
- 1200*600*25mm (4 stone textures Not available for Outdoor use)
 - 1200*600*50mm (4 stone textures)
 - 1200*450*50mm (3 stone textures)
 - 400*400*50mm (3 stone textures)
 - 600*400*50mm (3 stone textures)

Colour

Dragon pattern rock pu003

Uniform distribution on the surface

Material: PU polyurethane

Specification

1200*600*40mm (1 stone textures)
600*600*40mm (4 stone textures)

Colour

Stream stone pu004

Striped uniform distribution

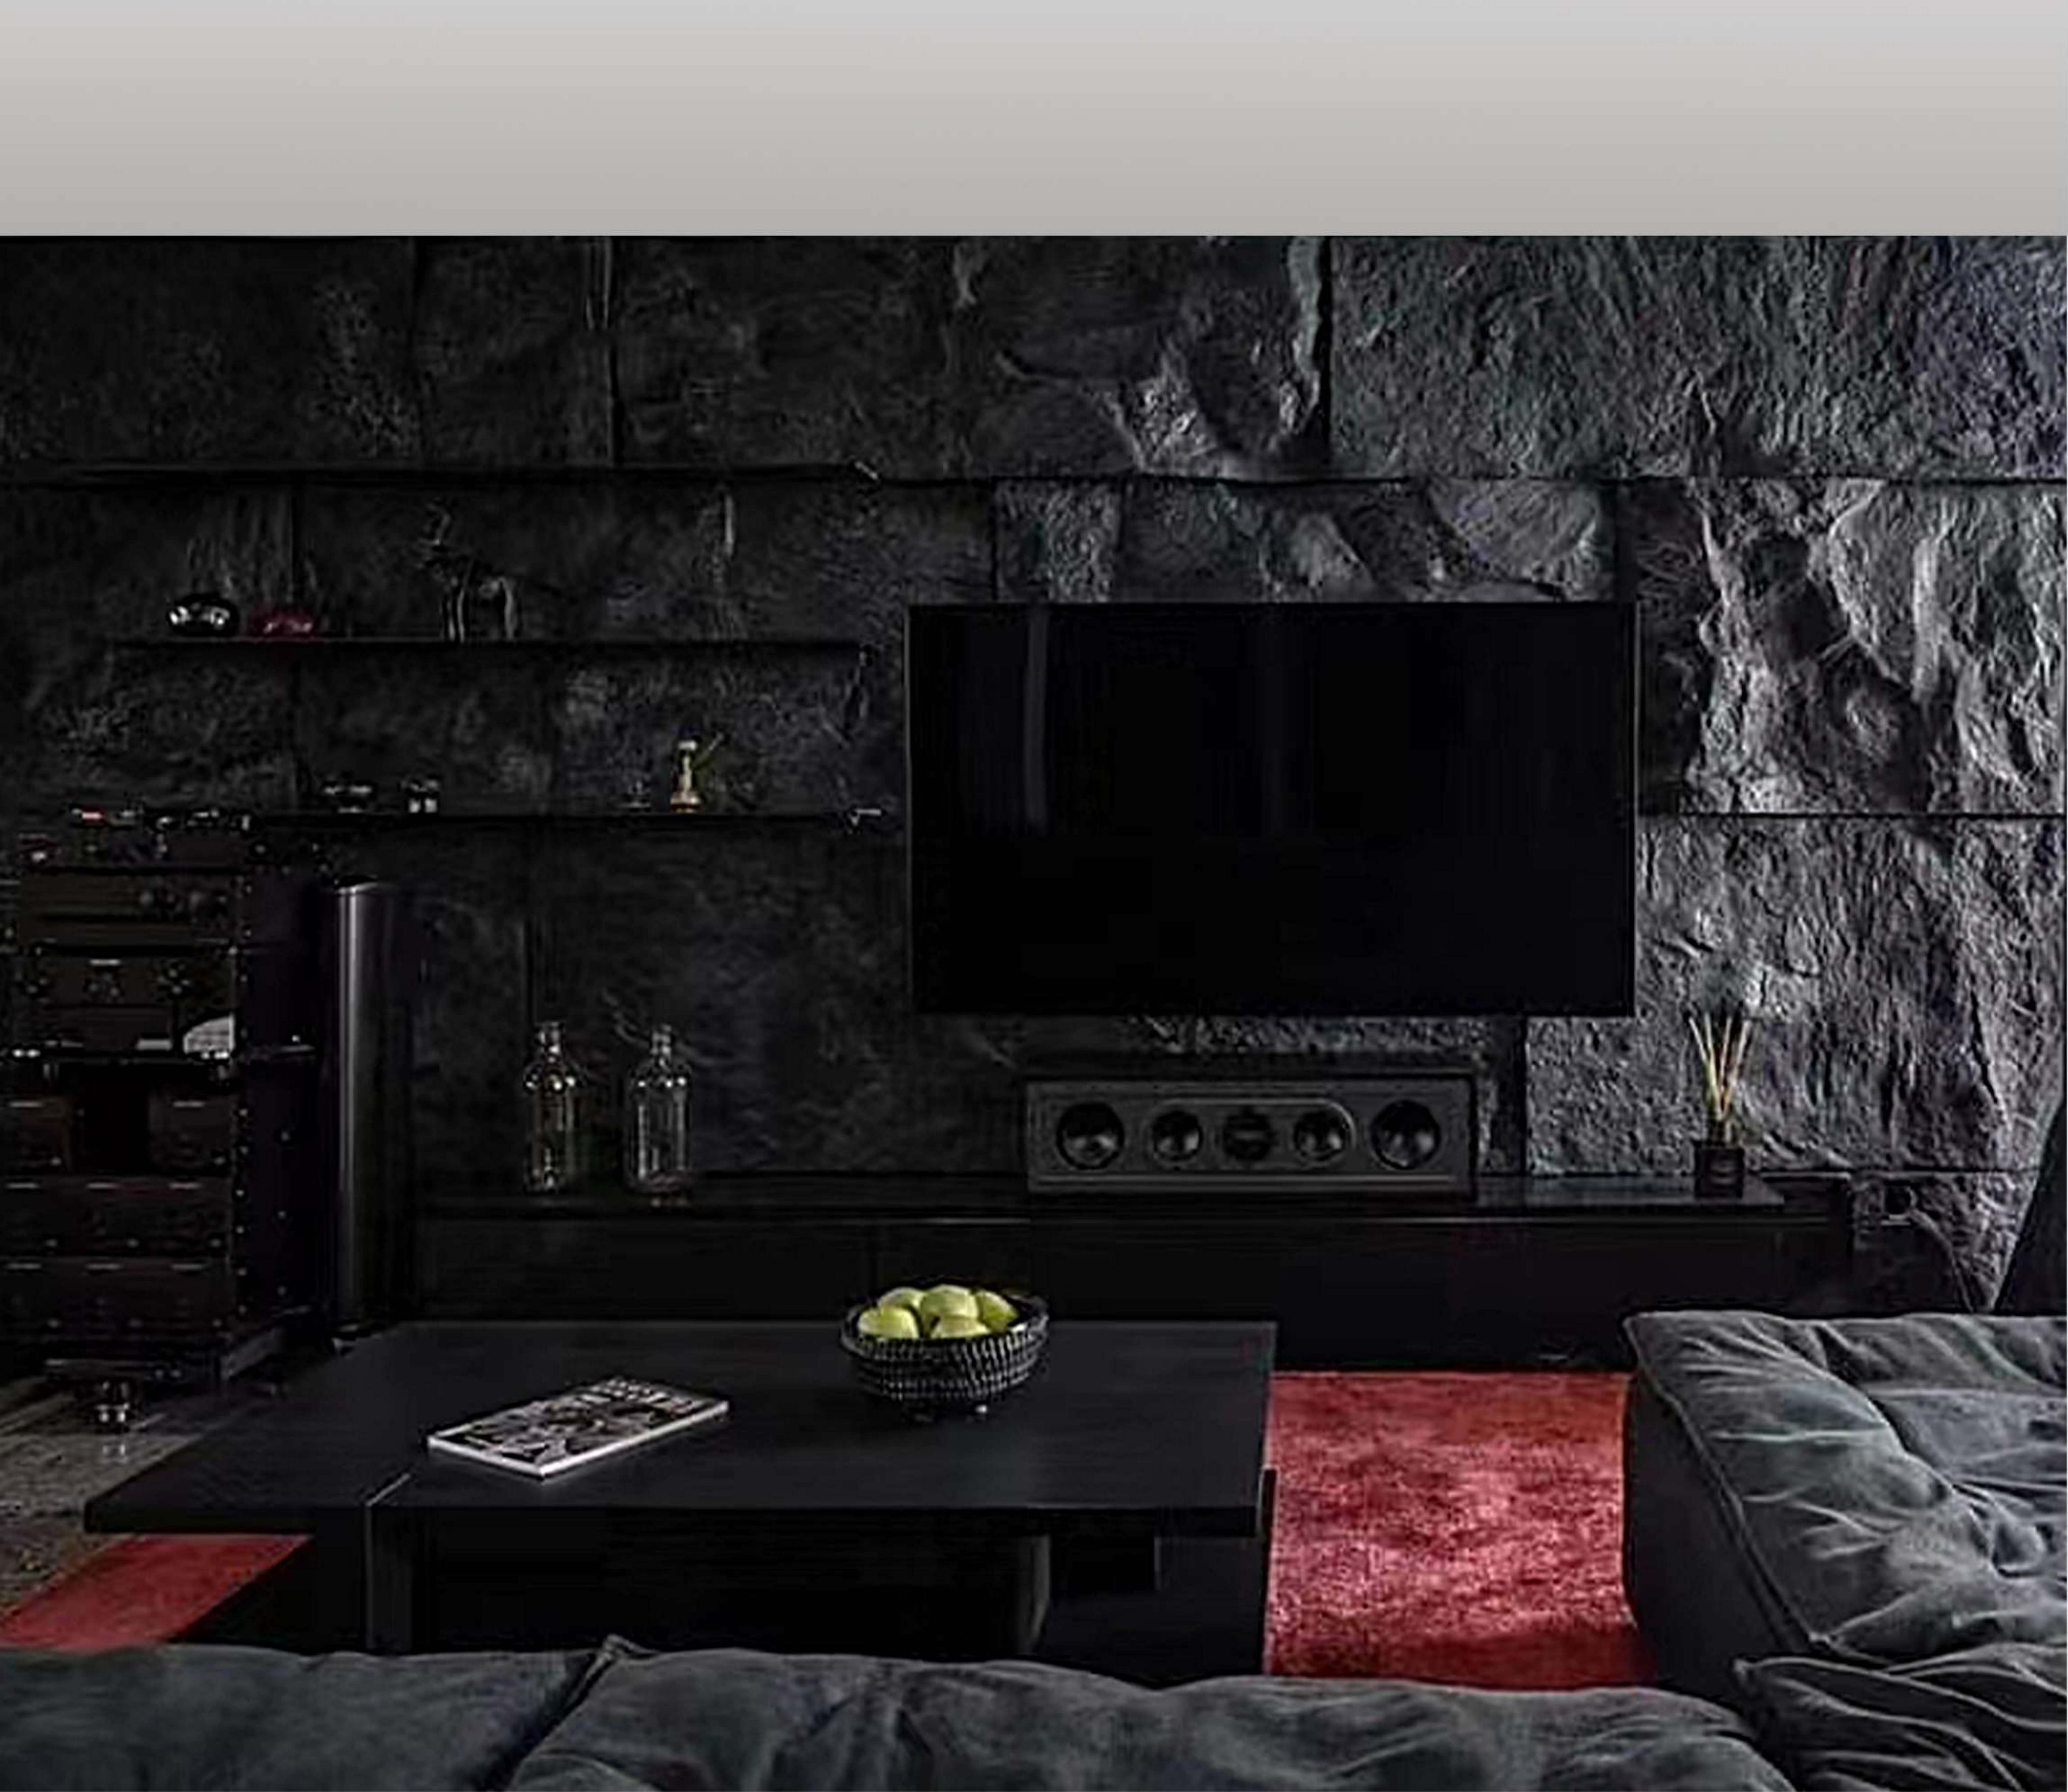

Material: PU polyurethane

Specification
1200*450*25mm (1 stone textures)

Colour

Mountain pattern stone pu005

Large bumps rising and falling in succession

Material: PU polyurethane

Specification
1200*600*100mm (2 stone textures)

Colour

PU hollow brick pu006

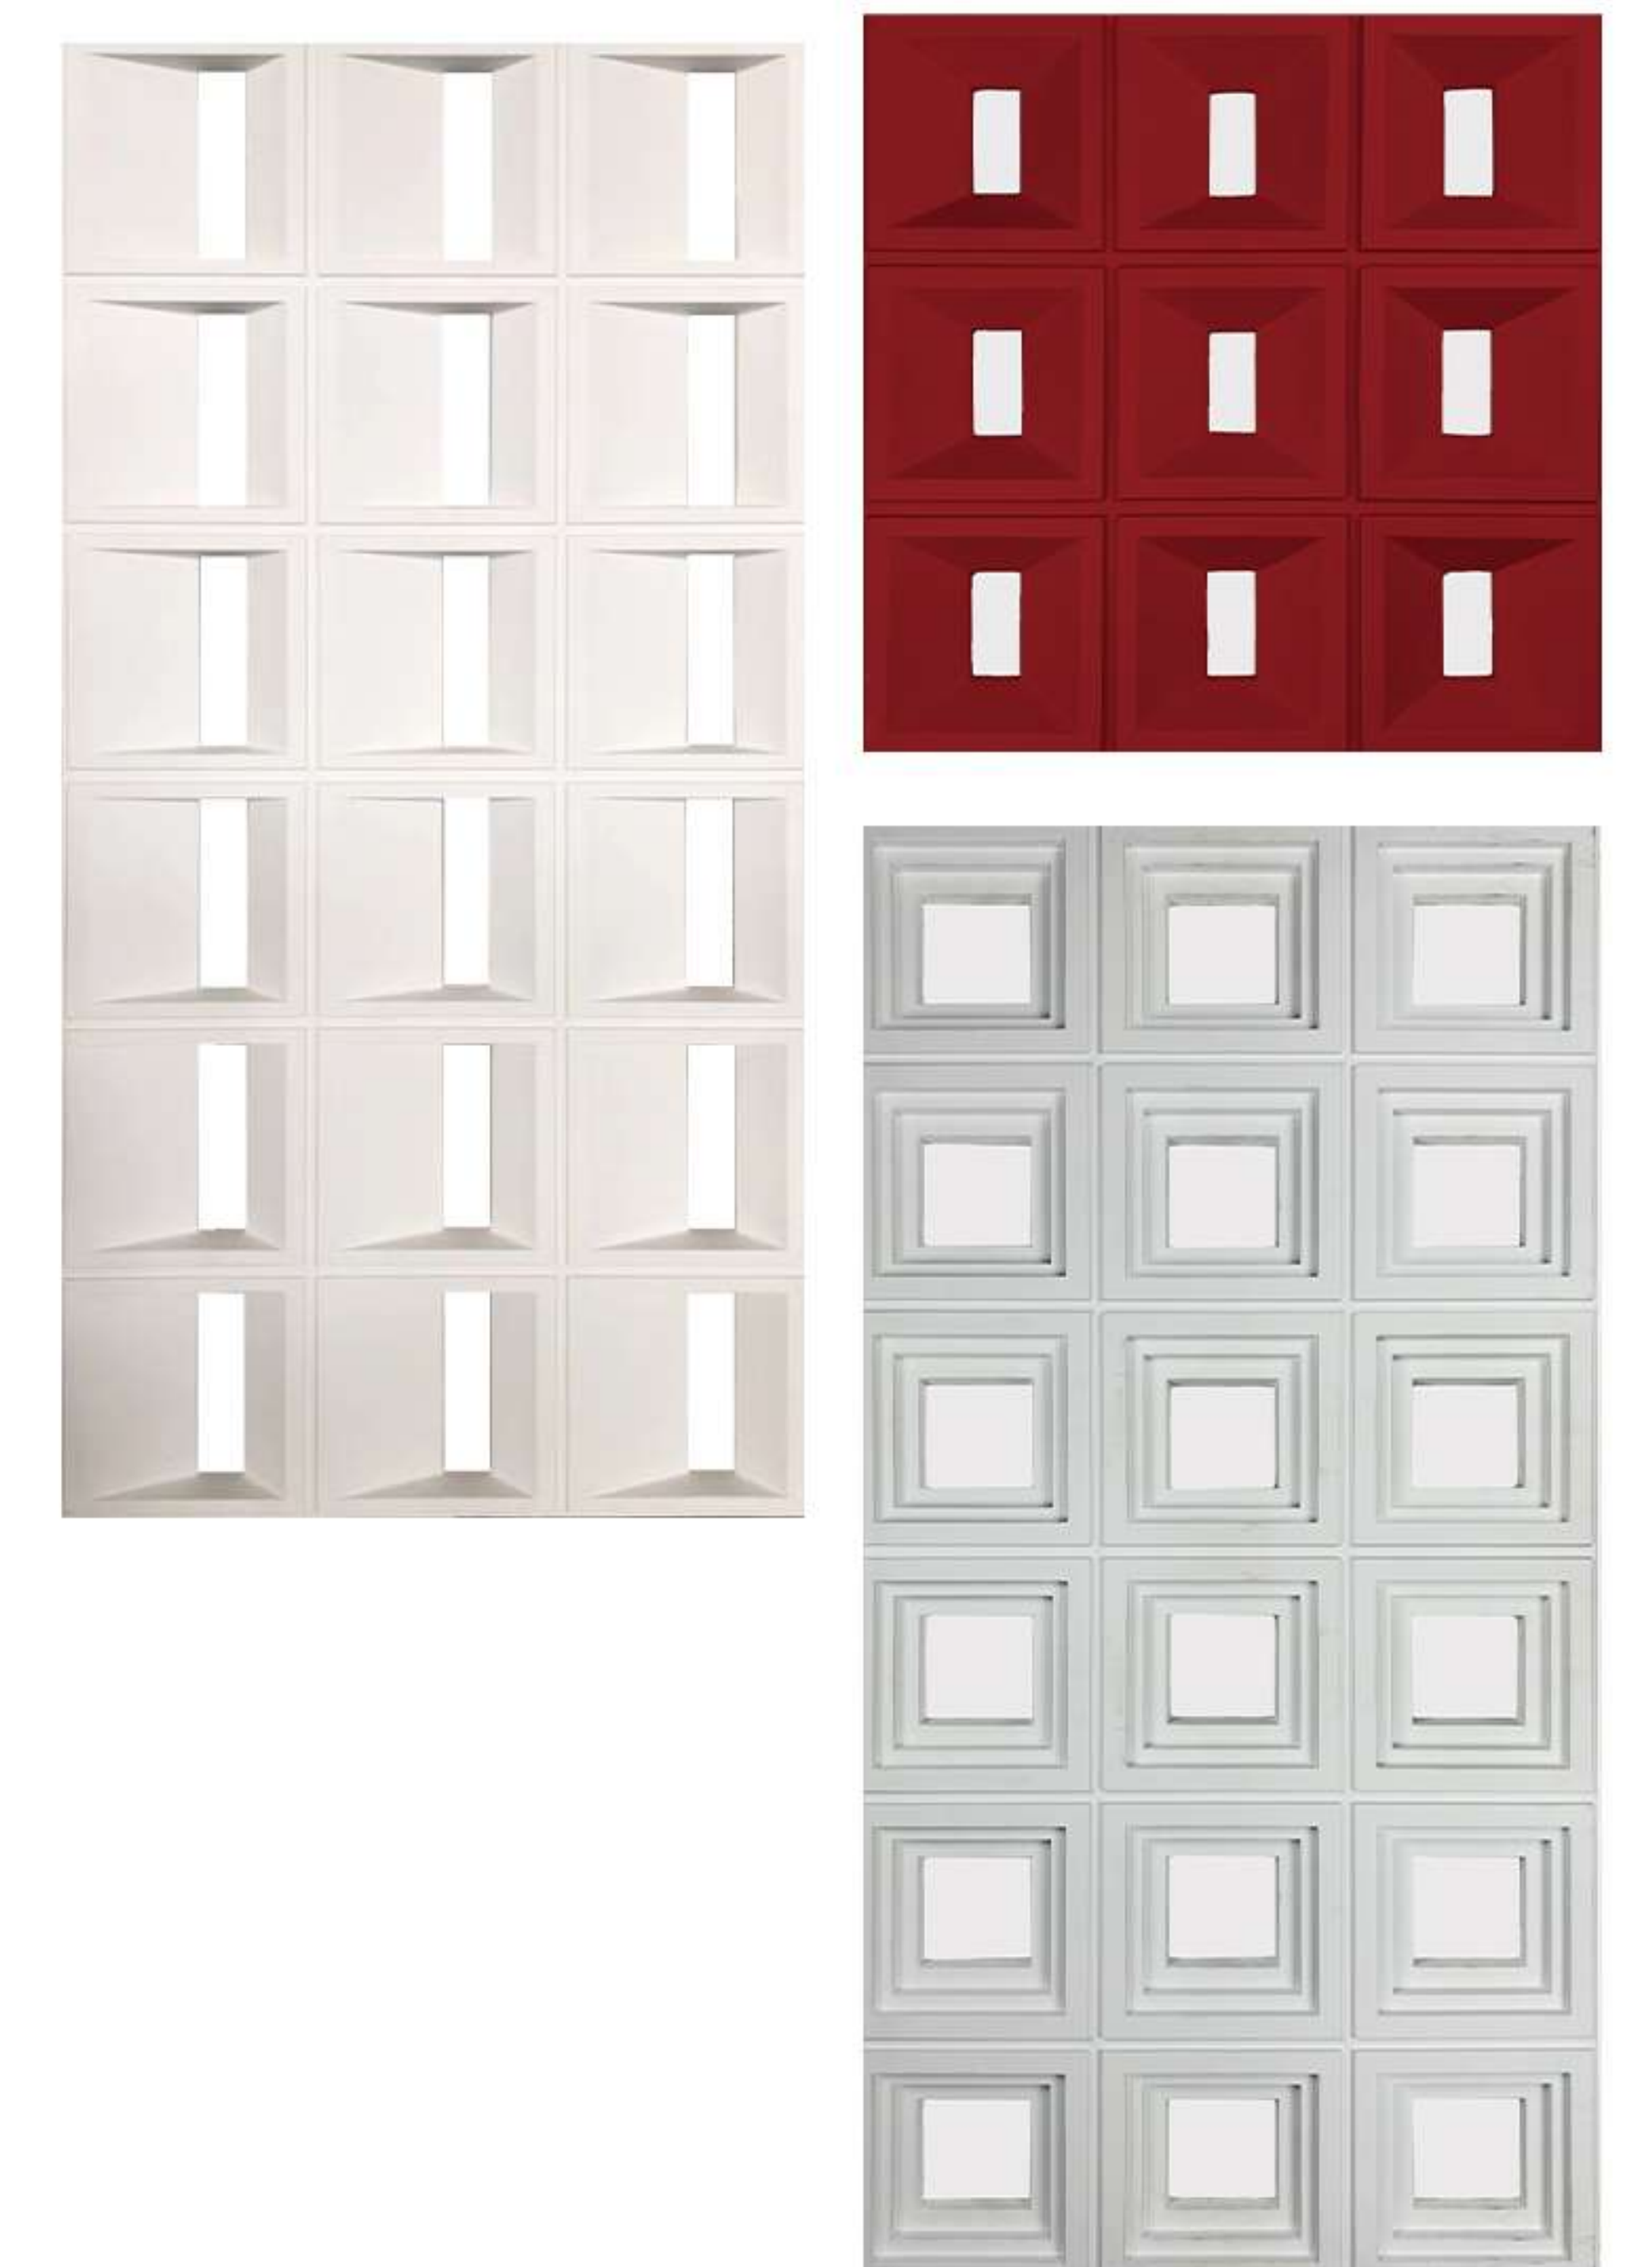

Rectangular hollow

Material: PU polyurethane

Specification

600*600*40mm (single-sided)
1200*600*40mm (single-sided)
1200*600*80mm (double-edged)
(Multiple styles available)

Colour

Brick stone pu008

Rectangular hollow

Material: PU polyurethane

Specification

1500*750*60mm (2 stone textures)

Colour

Dabanshan rock pu009

Concave in the middle

Material: PU polyurethane

Specification

2400*600*100mm (1 stone textures)

Colour

Tree pattern stone pu010

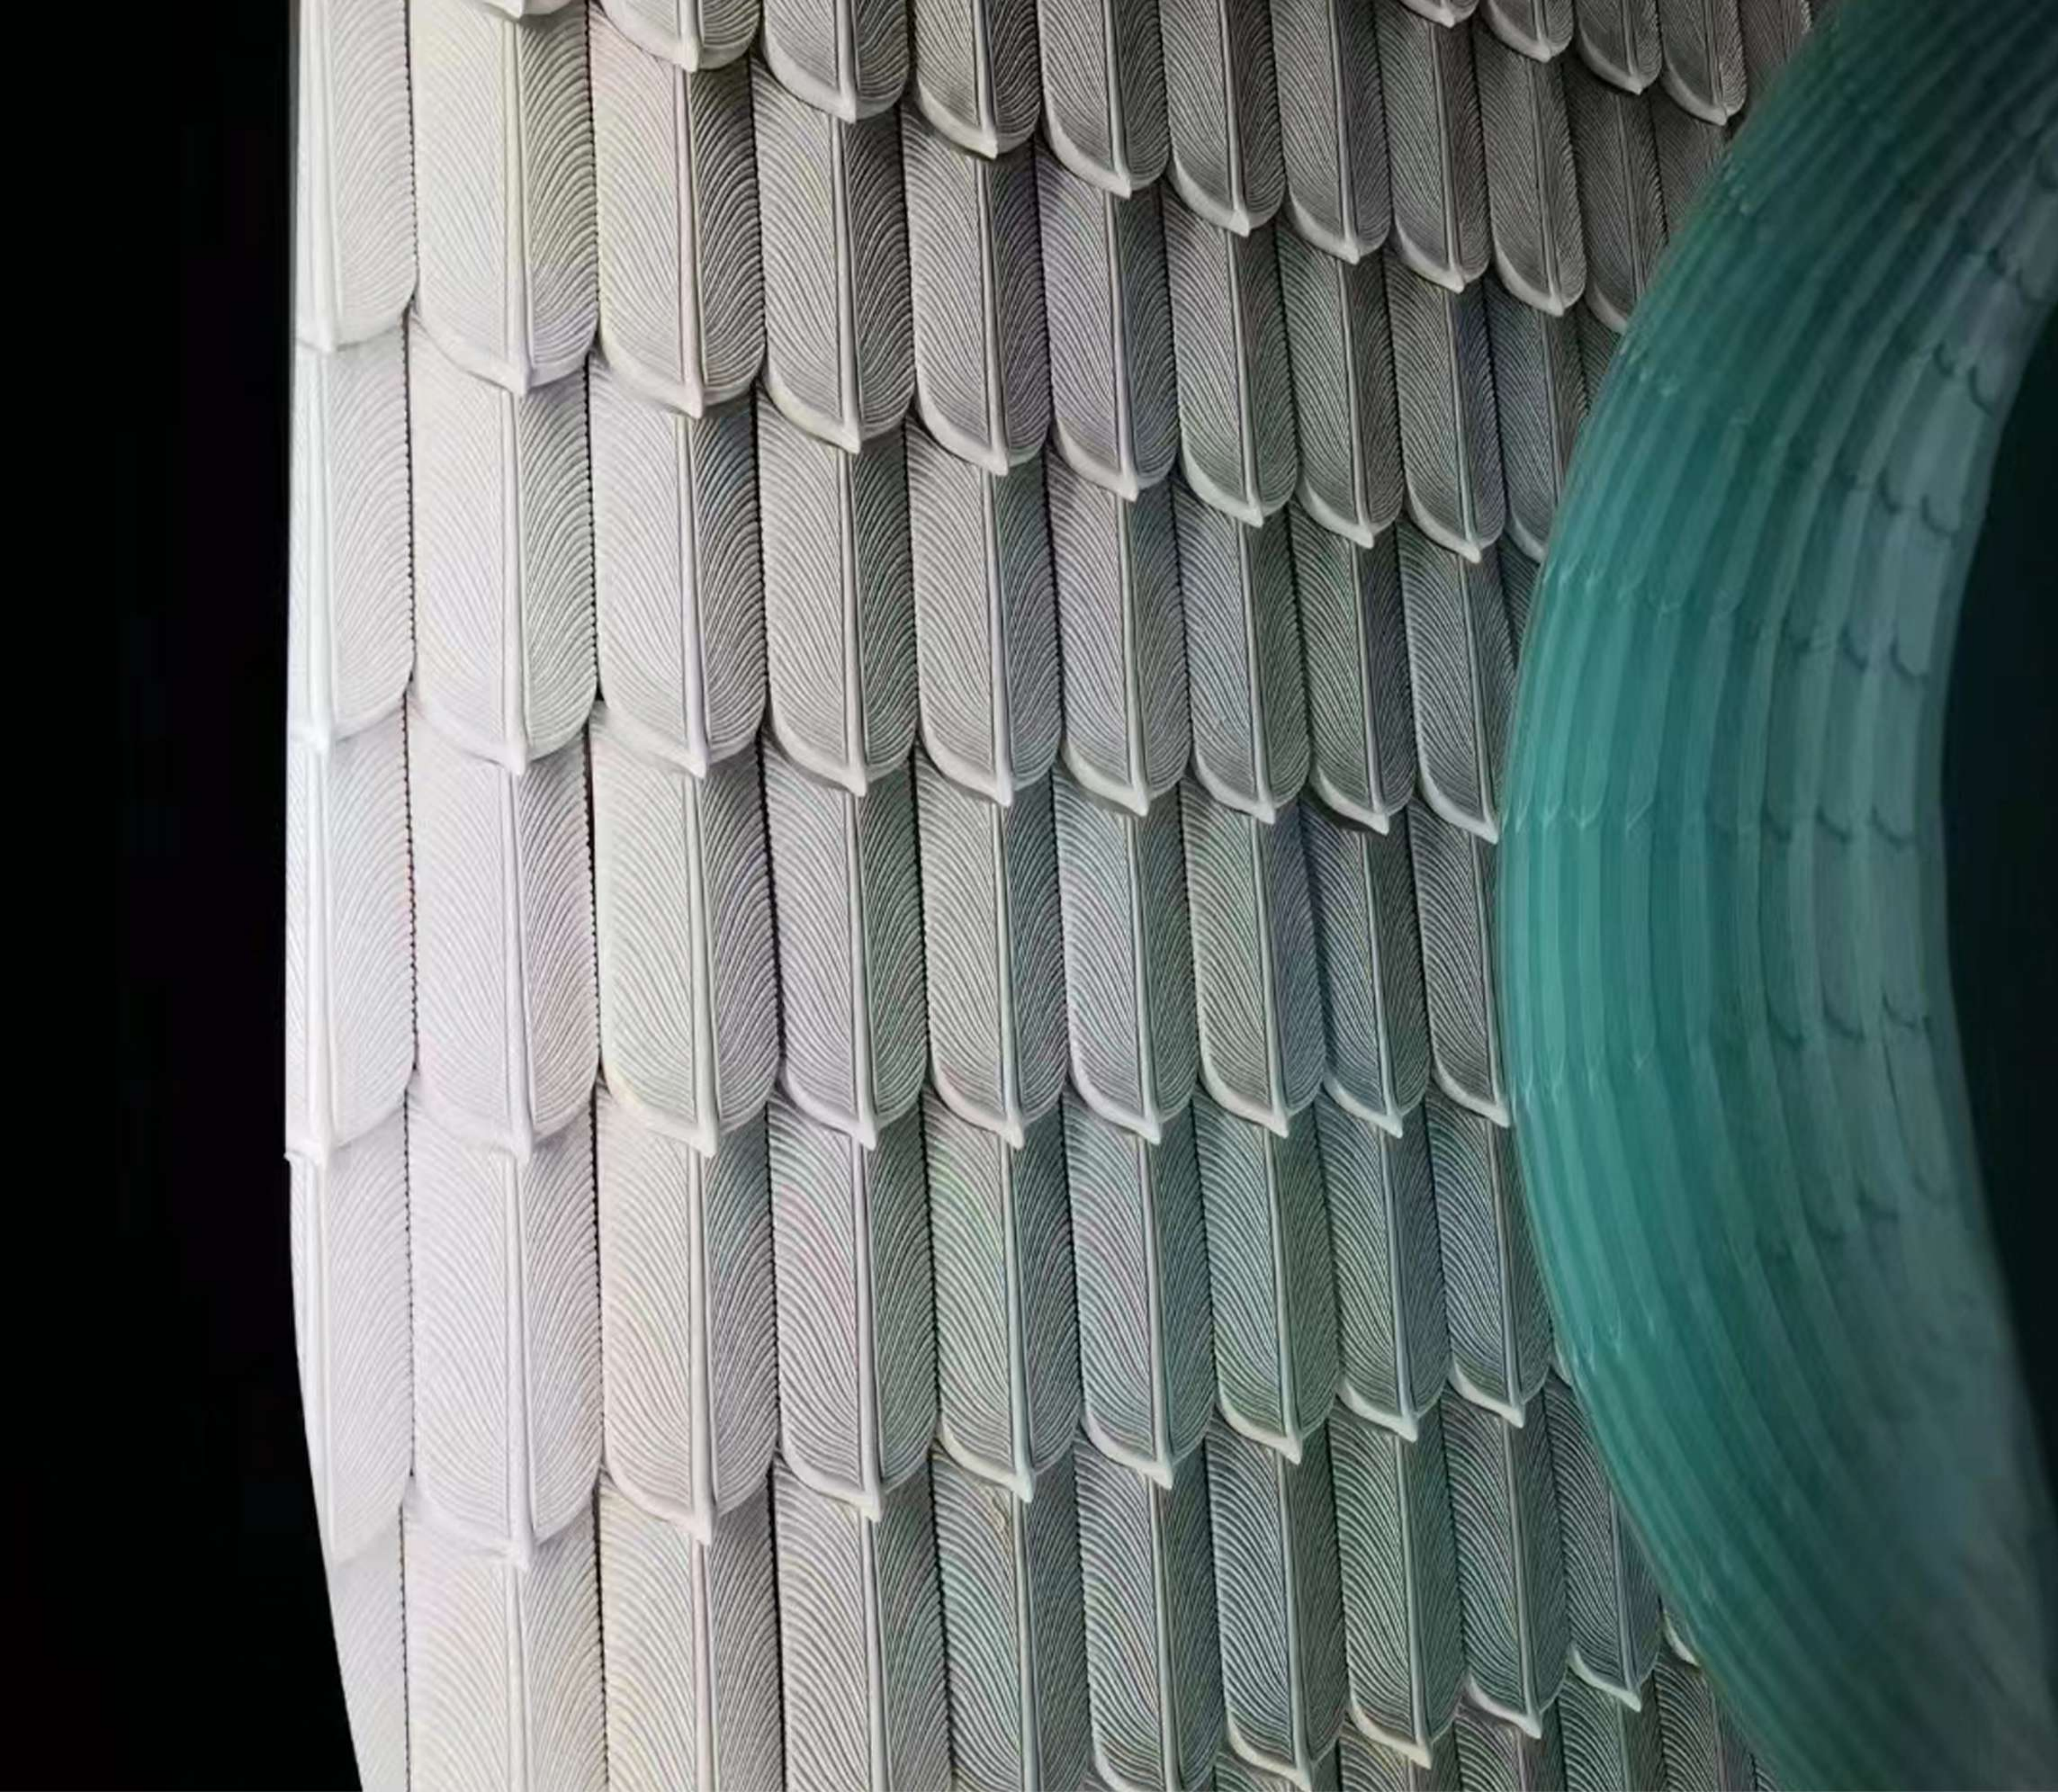

Concave in the middle

Material: PU polyurethane

Specification
1200*600*25mm (1 stone textures)

Colour

Feather stone pu012

Feather texture

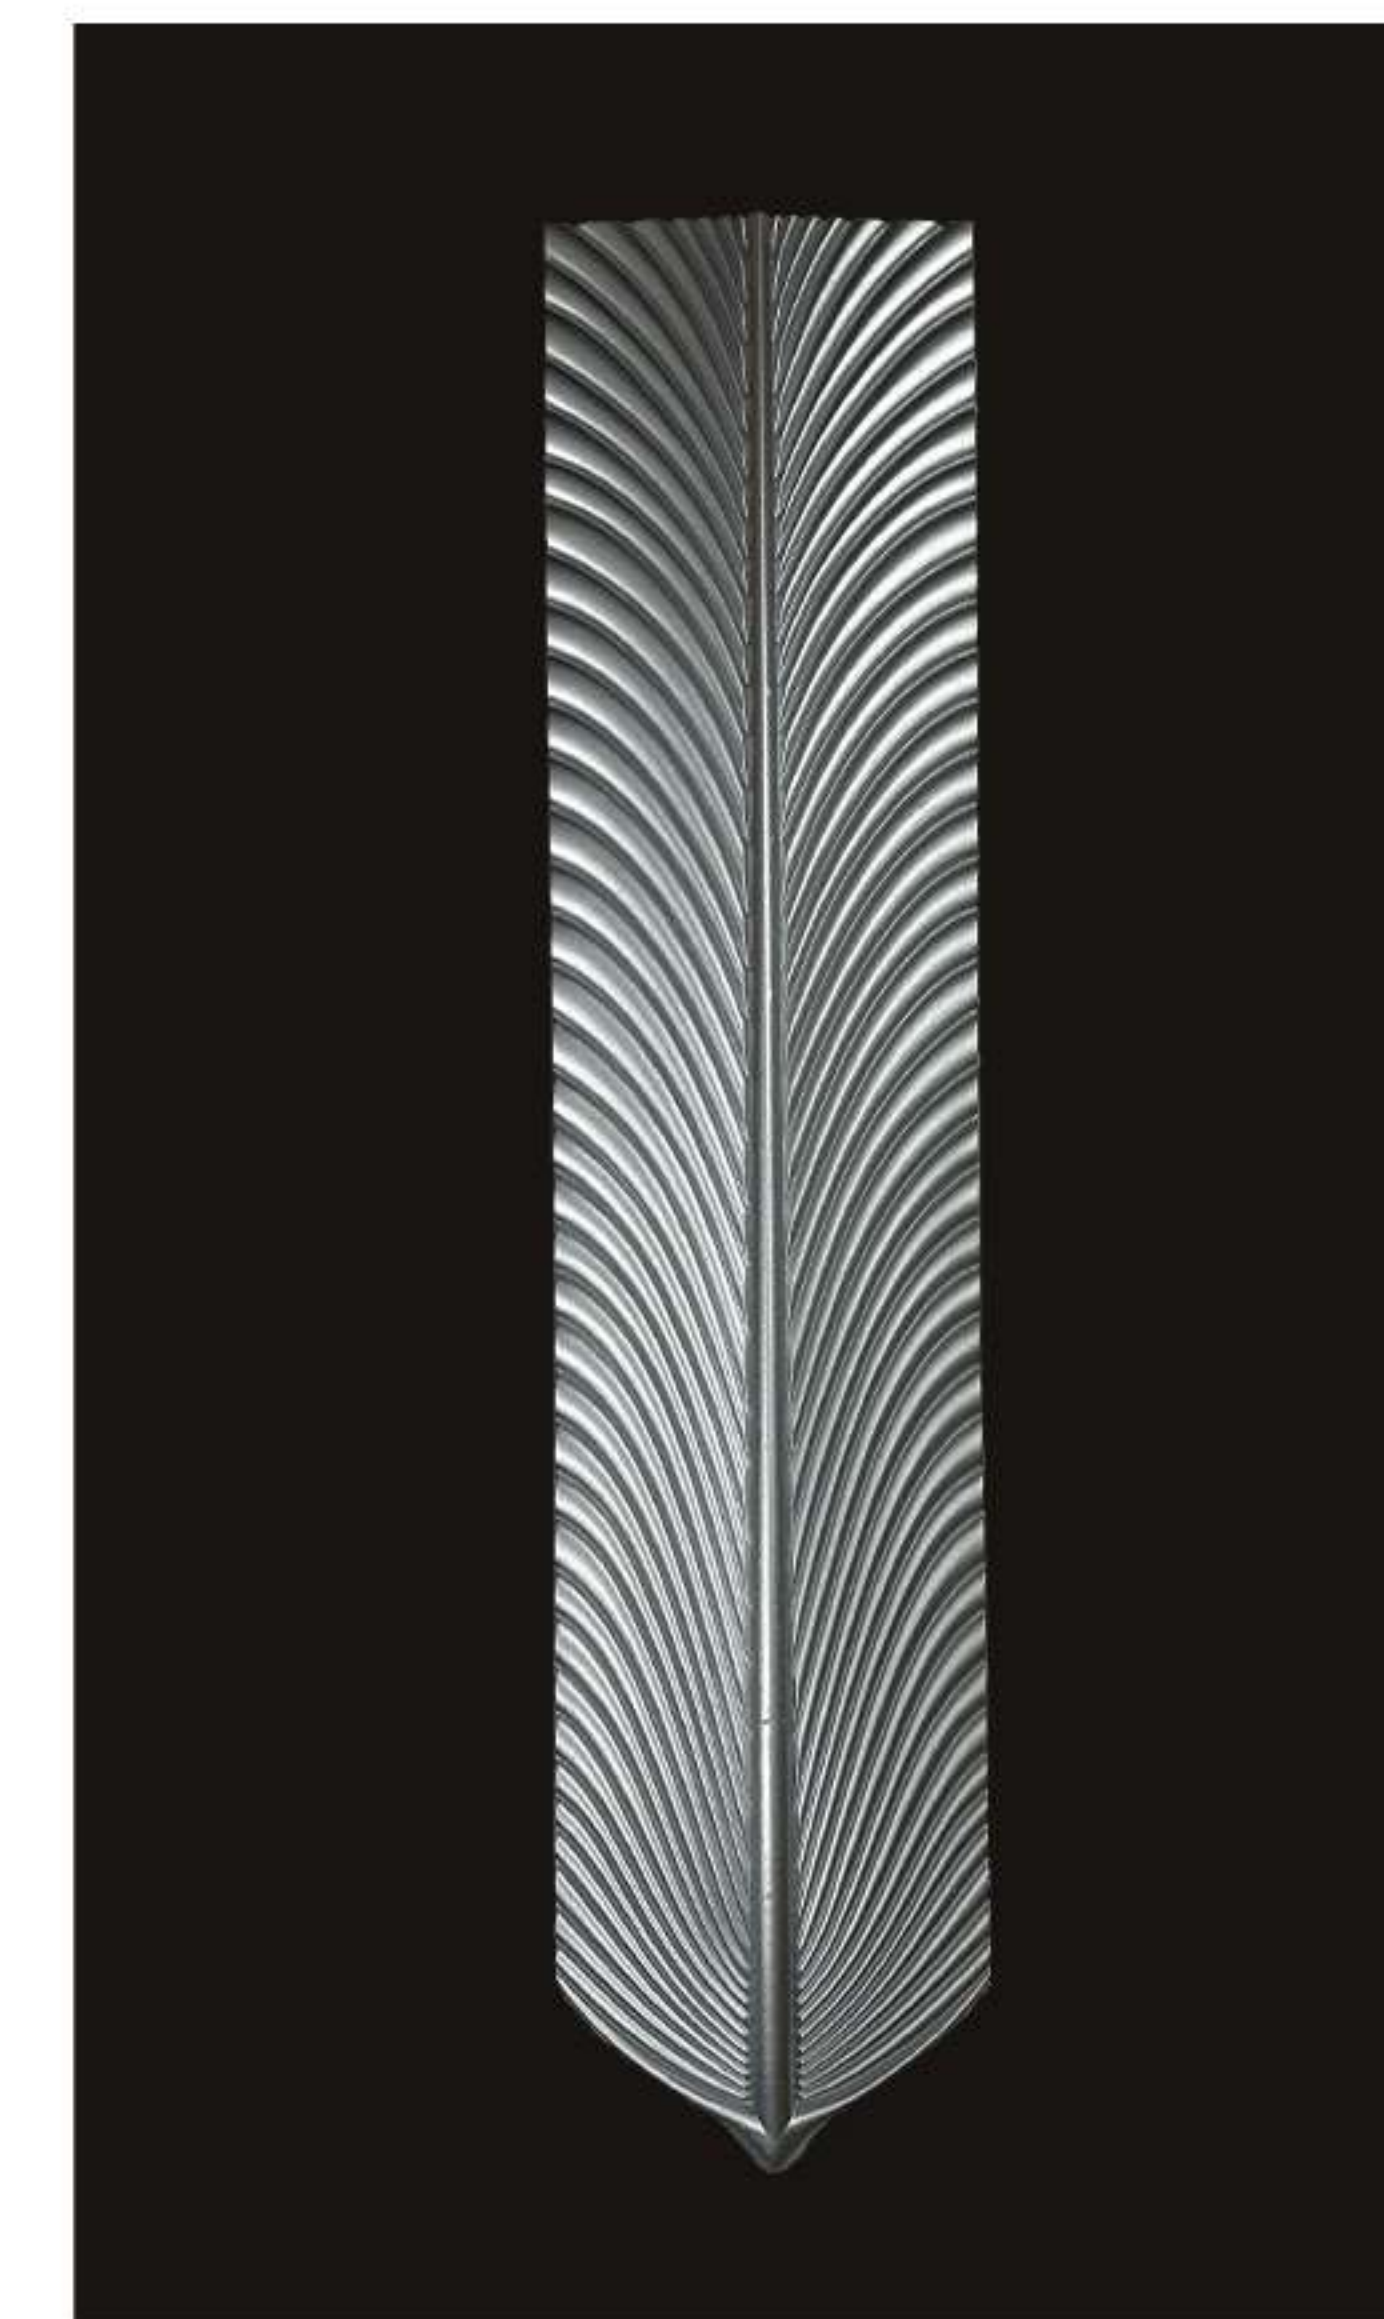

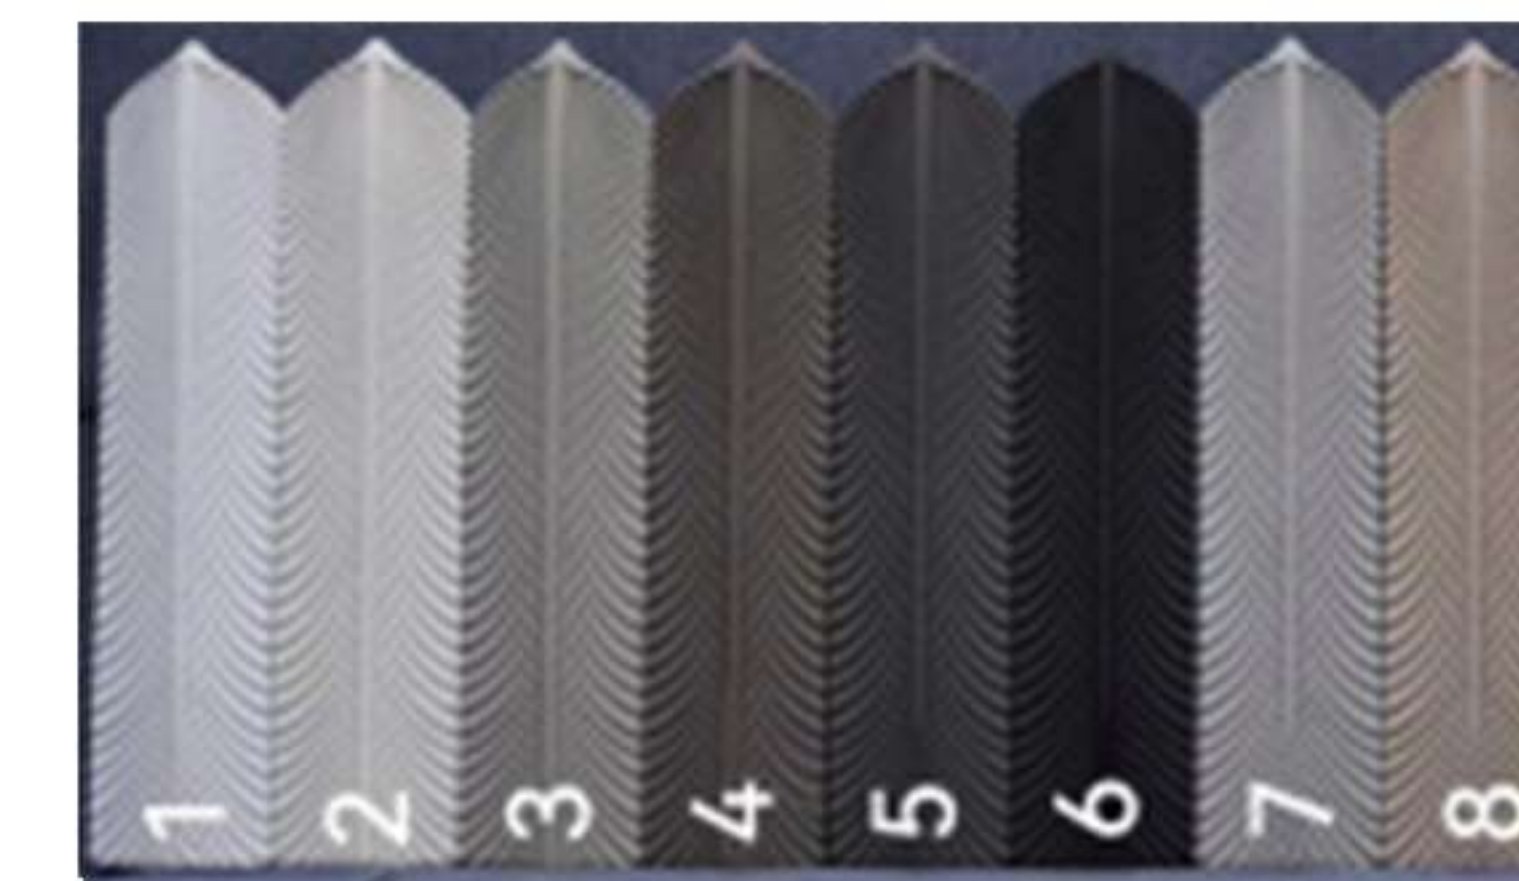

Material: PU polyurethane

Specification

900*200*10mm (Multiple colors available)

Colour

Moon stone pu013

Natural lunar crater texture

Material: PU polyurethane

Specification
1200*600*30mm (Multiple colors available)

Colour

Striola board pu014

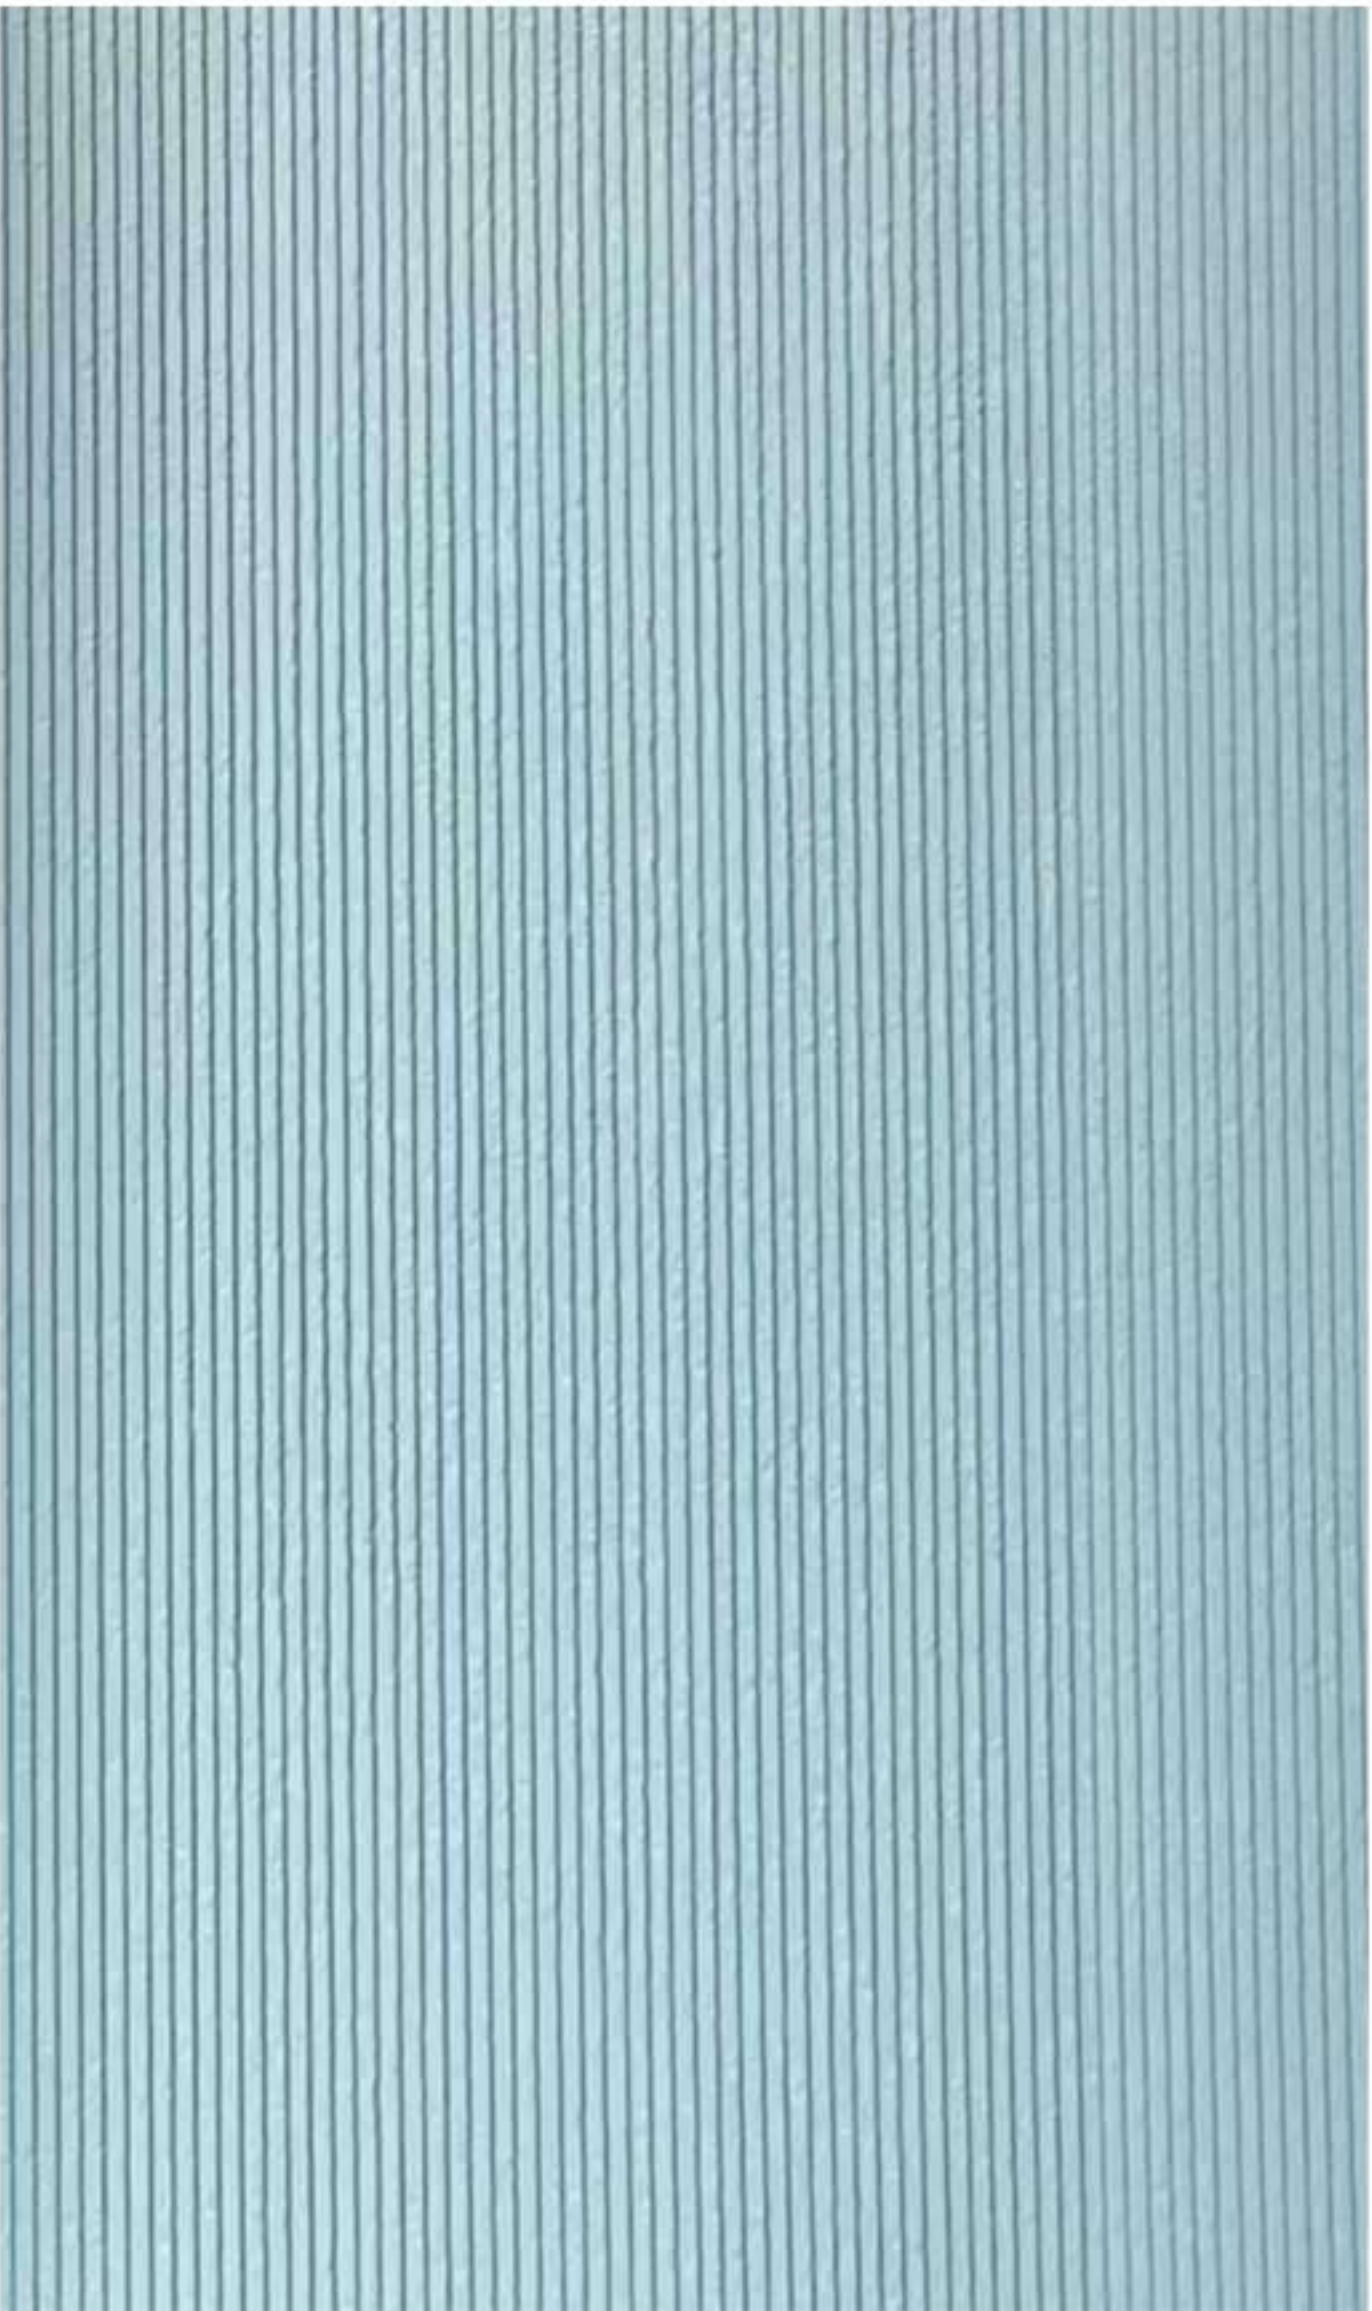

Natural lunar crater texture

Material: PU polyurethane

Specification
900*600*20mm (Multiple colors available)

Colour

Long Striped board pu015

Natural lunar crater texture

Material: PU polyurethane

Specification

1500*290*20mm (Multiple colors available)

Colour

Tree ring pu016

Annual ring

Material: PU polyurethane

Specification
1200*300*40mm (Multiple colors available)

Colour

1	2	3	4	5	6
7	8	9	17	18	20

Tile stone pu017

Third dimension

Material: PU polyurethane

Specification

1200*180*25mm (Multiple colors available)

Colour

Small rock pu018

Third dimension

Material: PU polyurethane

Specification

1160*300*30mm (Multiple colors available)

Colour

Morie stone pu025

Irregular stone

Material: PU polyurethane

Specification

1600*870*50mm (As shown in picture)

Colour

Fortress stone pu026

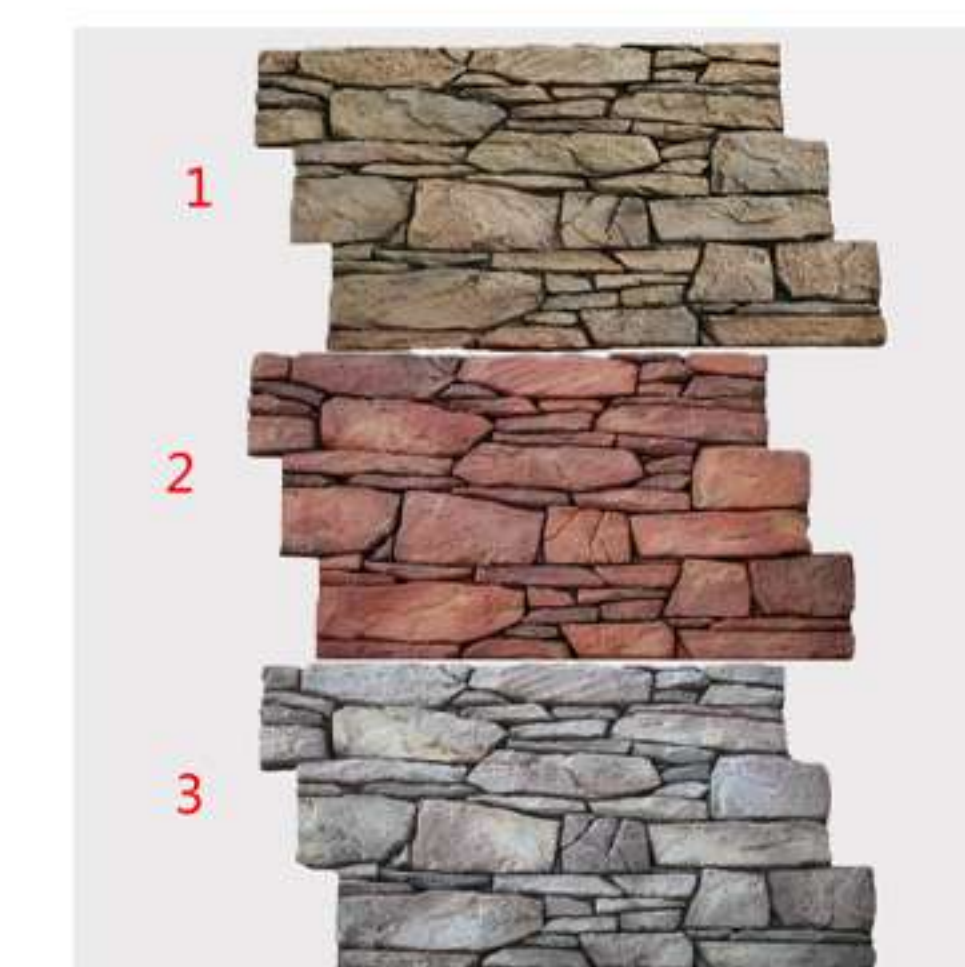

Irregular stacking

Material: PU polyurethane

Specification

1500*750*60mm (3 colors available/Select from picture)

Colour

Cobble stone pu027

Irregular ellipse

Material: PU polyurethane

Specification

1600*870*50mm (4 colors available/Select from picture)

Colour

Rampart stone pu028

Irregular ellipse

Material: PU polyurethane

Specification

1500*750*60mm (4 colors available/Select from picture)
